A former PhD student of Prof Peter Dyson, **Dr Endawoke Yizengaw**, won the 2006 University of California in Los Angeles (UCLA) Chancellor's Award for Postdoctoral Research for his research into the ionosphere-magnetosphere coupling using GPS TEC data. Out of 1,155 Post-docs at UCLA, 22 were nominated and he was one of 5 awarded the prize. Along with a plaque Dr Yizengaw was awarded a check for \$3000 dollars.
